Checklist For Assessment Of Research Proposal		
Sr. No.	Criteria/guideline	check Y/N
1	Introduction (2-3 pages in double space, focused)	
2	Aims (Broad aim of study)	
3	Objectives (Specific objectives within the broad aim. Maybe written as primary/secondary/tertiary as appropriate	
4	Materials and Methods a. Study design- clear and appropriate b. Study population . inclusion criteria - clear and appropriate . Exclusion criteria - clear and appropriate . Sample size - calculation and number mentioned c. Description of methodology - clear and appropriate d. Description of Statistics - appropriate	
5	Impact - Does the proposed research add to the current knowledge on the topic of research ?	
6	References : a. Are the references written in the university accepted style (Harward Style) b. Is intext citation of references in correct format ? c. Are the references recent (within last 10 years)	
7	Abstract (200-300 words) (5-6 Keywords)	
8	Title-appropriate length and reflective of proposed research	
9	Proforma-clear and specific data recording format	
10	Consent/Assent form with hindi and punjabi translations	
11	Patient information sheet with hindi and punjabi translations	
12	Competing interests a. Are competing interests clarified b. Has a same/similar study been done department/CMC in last 3 years ?	
13	Financial implications: a. Does the study add to the pre-existing cost of care ? If yes, how does the researcher plan to meet the cost b. Does the proposed study entail personal expenses to the student researcher ?	
14	Researcher role: a. Is the role of the researcher clear ? (The primary role should NOT be data recording) b. Is their an academic / learning impact on the student researcher ?	

The research Proposal has been presented in the department and checklist completed by Research Supervisor.
